COPPER INFUSERS

TAMRA JAL MADE EASY!

Copper Infusers by Forrest & Love are the perfect amalgamation of tradition and modern design.

Keeping in mind the traditional

Ayurveda benefits of copper,

Copper Infusers are must-haves

for the modern times! Add a charm to your dining ambience and nourish yourself

with this rich hydration therapy.

WHY COPPER INFUSER

Copper Infusers by Forrest & Love are a modern interpretation of traditional Ayurveda principles and an ode to the beauty of copper. Copper makes water naturally alkaline, and copper water is known to bring balance to all three doshas in the body.

Thanks to its anti-bacterial properties and health benefits, Ayurveda advocates drinking Tamra Jal – copper infused water.

HOW TO USE COPPER INFUSER

With your Copper Infuser, you can create vitality-filled copper water in the most non-toxic way, almost anywhere. Harnessing the powers of this coveted metal, Forrest & Love aims to revitalize your drinking water in the purest way possible.

Hook, immerse, allow to infuse – it's as easy as 1-2-3!

Simply allow the copper ions to infuse by letting it rest in still water overnight or at least 4 hours!

Copper will work its magic and transform your simple drinking water into silky smooth Tamra Jal. The functional size of the Infuser makes it a no-fuss companion at home, work or even when you travel. What's more, the striking designs are guaranteed to be the talk of the dinner table!

BENEFITS

Let water nourish you the way it is meant to – without the unwanted extras – just like the olden days!

The Copper Infuser can upgrade your standard tap water to blissful, vitality-filled Tamra Jal. Copper has anti-bacterial properties and makes water naturally alkaline. Besides, each handcrafted piece is made from high quality copper, and the exquisite designs are sure to leave an everlasting impression.

CLEANING TIPS

Pure copper naturally develops patina over time. This does not reduce the anti-bacterial properties of copper. If necessary, polish with lemon + salt. Wipe off the mixture with a clean, damp cloth or rinse with clean water.

FEATHER COPPER INFUSER

Breezy yet bold – the Feather Infuser can hook onto almost any water container. The slender form makes it a perfect travel companion – nourishing your body with natural alkaline water doesn't get easier than this!

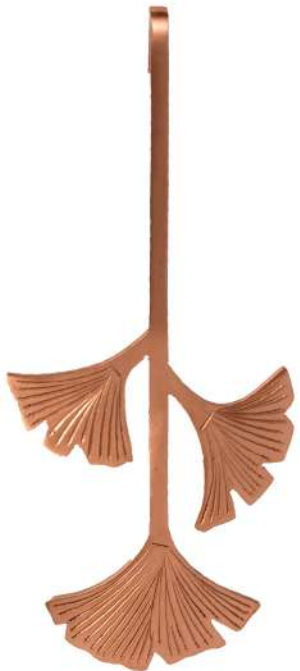

Each design detailing is hand-etched by generational artisans.

GINKGO COPPER INFUSER

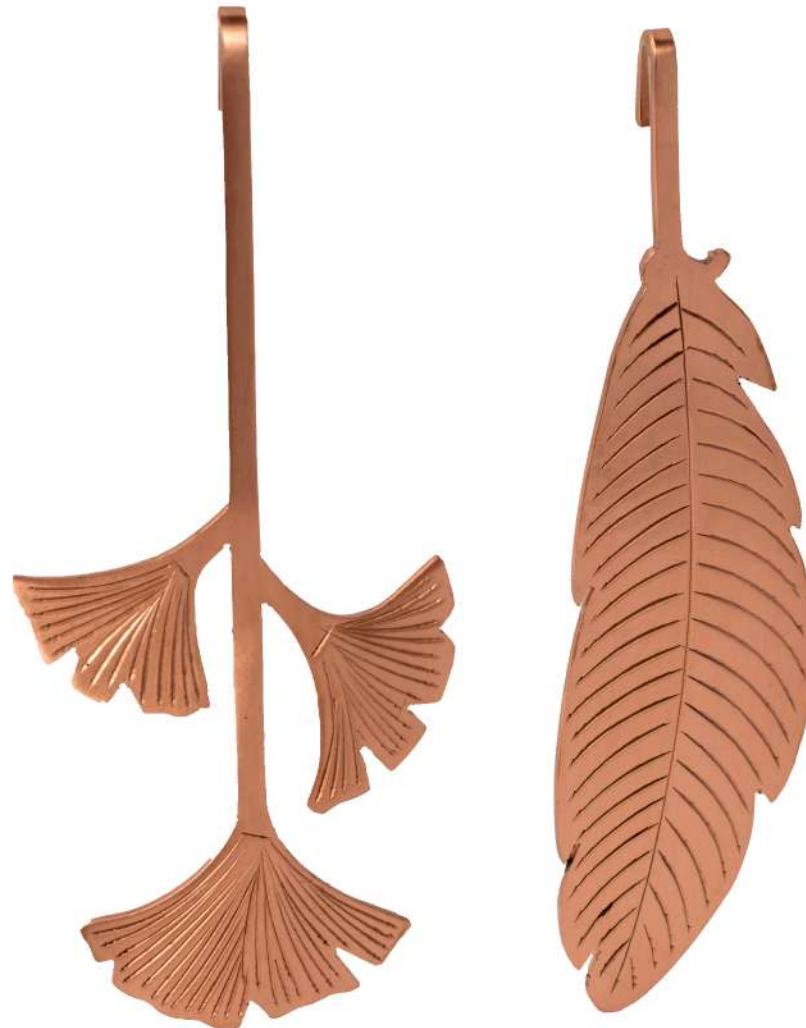

With its delicate design, the Ginkgo Infuser is guaranteed to be a conversational piece at your dinner parties.

Hand-etched by artisans, each leaf is bound to have unique detailing – just like nature intended. Easy to carry and store – this one's definitely a beauty!
